Minor/Cognate in Instructional Design and Technology

IDT Cognate/Minor for Non-Program Majors

The IDT program welcomes graduate students outside of IDT who want to learn more about the integration of technology with instruction. To complete a cognate or minor in IDT, students should take the following courses:

Code	Title	Credits
IDT 500	Survey of Instructional Design	3
IDT 520	Instructional Systems Analysis and Design	3
IDT 525	Development, Implementation, and Evaluation of Instructional Materials	3
Total Credits		**9**

This will be considered by the IDT faculty to be a cognate or minor at the master's level. If the student is a doctoral student and his or her department requires more credits for a minor, the IDT program chair will work with the student to select additional coursework to meet that minimum.
